PROJECTS

TechStore Retail Management System

2026

Business Analysis, System Design, Documentation — Academic Project

- Analyzed business requirements for a multi-role retail management system supporting customers, store operations, warehouse management, and internal administration.
- Created user stories and translated business requirements into functional system models and workflows.
- Designed Functional Decomposition Diagram, Use Case Diagram, Activity Diagram, Sequence Diagram, and Data Flow Diagram and supporting requirement documentation.
- Modeled key business workflows including order fulfillment, promotion approval, inventory distribution approval, and inventory management.
- Contributed to project documentation, stakeholder analysis, workflow modeling, and UI/UX support activities.

MD NAD Landing Page

2026

Personal Project

- Designed a responsive landing page using Figma and AI-assisted prototyping tools.
- Created user-focused layouts and visual content to improve engagement and usability.

EXPERIENCE

NAD Production

2025 – 2026

Content Production Collaborator

- Participated in content review and feedback activities for promotional media projects.
- Contributed ideas and feedback through collaborative discussions with the production team.

EDUCATION

Ho Chi Minh City University of Education (HCMUE)

Bachelor of Information Technology (Expected 2027)

GPA: 3.2 / 4.0
